

## Transparent Film Dressings – A clear choice for quality care

Dukal transparent film dressings are designed to provide site protection from liquid, water, and bacteria while allowing for high moisture vapor transmission. Our versatile semi-permeable film dressing can be used to provide full site view, to protect the surface of the wound, as well as to stabilize and secure IVs and catheters. The Dukal product offers a wide range of sizes to meet all your clinical needs. Products are conveniently available in bulk packaging.

> Additional sizes can be made available. For more information, please email [orders@dukal.com](mailto:orders@dukal.com)
