

Better Health. Better Future.

Dukal is driving growth through manufacturing and supply chain excellence to mitigate disruptions and create solutions that better serve the needs of healthcare professionals and patients around the world.

Applying the expertise of our global workforce, national brand of products, technology investments, data insights, and trusted partnerships to build a better future.

Dukal's national brand of products

Dukal provides a wide range of materials and sizes designed to meet our strict quality standards and your clinical needs. Products are conveniently available in multiple packaging options, including unitized boxed, bulk trays, bags, and rolls.

Antiseptics

Infection prevention is at the core of our design. Disinfect target areas and reduce infection risk with povidone-iodine, isopropyl alcohol, and benzalkonium chloride solutions.

Medical Tapes

Dukal's broad range of medical tapes ensures clinicians have the right option to meet the intended use, environmental condition, and individual patient skin needs.

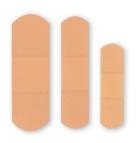

Transparent Film Dressings

A clear choice for quality. Versatile semi-permeable film dressings provide complete site view and protection while allowing high vapor transmission to the skin.

Gauze and Dressings

Dukal's trusted and extensive line provides a wide selection of quality wound care dressings to support patient care and cleansing.

Adhesive Bandages

Adhesive bandages provide protection, durability, and comfort for minor wounds in plastic, sheer, flexible fabric, and soft flexible fabric substrates.

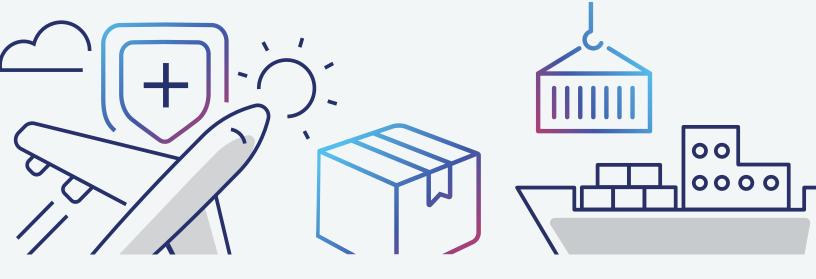

Wound Closure Strips

Adhesive-backed wound closure strips, thin, non-woven, reinforced fibers in a bilateral pattern provide high tensile strength.

Private Label

With long-term vertical partnerships in manufacturing and packaging, Dukal provides finished branded products to your specific specifications, all tested to demanding quality standards. The added value of a full-service team of in-house designers helps ensure the artwork meets all print, regulatory, and brand requirements.

Explore the possibilities of industry-leading services

Dukal's expertise in product management, quality and regulatory requirements, and supply chain management allows us to develop customized solutions to achieve your business goals.

Trusted Partnerships

With over 30 years of healthcare manufacturing and development, a strength of Dukal has always been our ability to act as a trusted partner and advisor for our customers to benefit your brand and your bottom line.

Quality and Regulatory (QA/RA)

Dukal's industry-leading knowledge of quality and regulatory compliance requirements continues to differentiate us as the complexity of our product solutions increases. Our experienced global team ensures product compliance and specification requirements to protect the value of your brand.

Driving Innovation

Working collaboratively with healthcare professionals, we turn innovative ideas into practical patented solutions. Dukal can manage the entire process from product specification to delivery or provide customized solutions at any stage, aiming to increase efficiency, reduce costs, and minimize risk.

Supply Chain Resiliency

Our cross-functional team stays a step ahead and works collaboratively to achieve your goals and deliver results. We provide real-time information from factory to delivery using automation and IT investments. Through transparency and proactive active decision-making, we stay ahead of today's supply chain complexities and ensure you have what you need when you need it.
