### Top Sponge:

The Top Sponge is an excellent example of DUKAL Quality. This high performance multi-layer sponge features a soft rayon/poly outer facing combined with a cellulose liner and rayon fill. It adds protection to the site by offering enhanced absorbency.

### Pressure Dots:

DUKAL Pressure Dots are high quality non-woven gauze spheres that provide pressure to an insertion site. They are packed in a sterile pouch. Pressure Dots are an excellent alternative to using a folded 4x4 gauze pad!

- **9550** Sterile, 1” Sphere  
  1/pouch, 50/bx, 10 bx/cs
- **9552** Sterile, 1” Sphere  
  1/pouch, 50/bx, 10 bx/cs

### Non-Adherent Pads:

DUKAL Non-Adherent Pads are designed to protect the wound site. The non-stick outer facing will allow the dressing to absorb, but not interfere with the granulating tissue by adhering to the wound. The easy removal of the pad will minimize trauma to the wound site. These pads can be cut to fit any size wound without separating.
